

## Welcome New Societies

Dear Colleagues,

It is a great pleasure for the editorial team of JOLA to start into the new year with only good news: two more laser societies have chosen JOLA as their official publication.

We are proud to announce the participation of the “Deutsches Zentrum für Orale Implantologie (DZOI) – Sektion Laserzahnmedizin” and of the “Societatea Romana de Laseri in Stomatologie (SRLS)” in JOLA.

We are fully confident that these two societies will enrich the spectrum of manuscripts presented in our Journal to a great extent. The acceptance of JOLA worldwide and the increasing number of citations of manuscripts published in JOLA raise our hopes of putting JOLA on the ranking list of scientific journals in 2005.

So, let us redouble our efforts to create a highly scientific, up-to-date journal, useful not only for researchers, but also for all the practitioners who contribute to ESOLA’s strength and excellence.

Let me take the opportunity to send a special appeal to all laser practitioners: the editors of JOLA want to

encourage you to present your cases in our journal. It is our firm belief that JOLA needs your practical experience and reflection on the scientific themes presented in the “science” section. The case reports do not need to follow the same strict guidelines that apply to the scientific publications, but should present your point of view on daily work with lasers. In other words, don’t hesitate to send a manuscript!

ESOLA is preparing what we think will be the event of the year – the Laser Congress 2005 in Barcelona. We hope the meeting will live up to expectations and demonstrate the significance ESOLA has reached in the landscape of laser dentistry today.

I am looking forward to meeting all of you in May in the beautiful capitol of Catalonia – Barcelona.

Sincerely yours,

DDr. Franziska Beer  
Managing Editor
